

A fast head-to-head word game. **One board. Ten timed rounds. The rarest word wins.**

## THE PERFECT PARTY GAME

Great with **just 2 players** for a head-to-head duel, or a **whole crew** for a noisy free-for-all. Everyone plays the **same board at the same moment** – gathered around one table, or scattered across a group chat. Drop the link, everyone taps in, and you are all racing the same letters live.

## HOW TO START & JOIN

1

**Host starts a game** – pick Public or Private. A code is created when you start.

2

**Share the code or link** with your people, in person or in the group chat.

3

**Everyone joins, picks a name,** and waits for the host to hit Start.

START OR JOIN AT

**playoutlier.com/live**

**Hosting needs a free account** (takes ten seconds). Everyone else just needs the code or link – no account, no app, no install. **Public** = anyone with the link can hop in; **Private** = your group only.

## HOW TO PLAY – 5 RULES

1

**Rarest wins.** Everyone hunts the same board. Common words score low; the rarer your word, the more it is worth – up to **100 points** for a single word.

2

**One word, on the clock.** Each round you lock in **one** word before the 60-second buzzer. The rarest word that round takes it.

3

**Letters float free.** Use any letters on the board – they do not need to touch or connect. Just never use a letter more times than it appears.

4

**Always lock something.** Any real word beats an empty hand. A guess never scores zero, so do not leave the round blank.

5

**Played words burn.** Once you – or anyone else – uses a word, it is spent. It will not score again the rest of the game.

## SCORING & WINNING

**Rarer = more.** Every word is scored on how rare it is. The obvious word everyone sees is worth little; the word nobody else found is worth a lot.

**Highest total wins.** Points stack across all 10 rounds. Whoever has the highest total at the end takes the game.

**A perfect game is 1,000.** Up to 100 a round across 10 rounds, so 1,000 is the ceiling – nobody really gets there, but it is the number to chase.

**Ties share the win.** Same top score? You split first place.
